

THE CLAY CITY TIMES.

\$1.00 a Year in Advance.

We are here to help Clay City, the Surrounding Country and Ourselves.

J. E. Burgher, Publisher.

VOL. XVI.

CLAY CITY, KY, THURSDAY, MAY 11, 1911.

NO. 19.

Coming to See Us.

The business men of Lexington will run an excursion over the L. & E. tomorrow, and will make stops at every station on the line. Of course it is an invitation for business to the Bluegrass capital. The train will arrive at Clay City at 9:25 and be here thirty-five minutes. The notice given to the public along the road is of such short duration that no plans for recreation at this place so far are yet not made. No stops will be made en route home in the afternoon.

To Tour Eastern Kentucky.

Louisville business men will tour Eastern Kentucky about May 26. They will go over the L. & A. by Beattyville and on to Jackson where they will spend the night and return to Louisville over the L. & E. making stops along the roads. We have no schedule so far and are unable to tell when they will arrive in Clay City.

Increased Wealth.

The State Board of Equalization at Frankfort has passed on ninety-two counties thus far raising fifty-two of them to the aggregate amount of about \$22,000,000. This will bring the amount of taxable property in the State so far up to about \$850,000,000, or a net gain of about \$25,000,000 over last year.

Serious Injury.

While at work tearing down an old barn at Stanton Monday Jesse Crow fell from the roof, through loft and hit the ground upon his head. Some time later he was found in an unconscious state with his head and face badly cut up. Both arms are also paralyzed. His condition is very critical.

A Tree From Each County.

A plan will be suggested to the state capitol commission by Hon. Frank P. James, state auditor, to set aside one day as "tree day," when each county in the state will be invited to come to Frankfort and plant a tree on the capitol grounds. This would give the capitol at least 119 trees and each county could plant more than one if desired. Schools or societies also would be invited.

Tell us the News.

The Times wants the news and it wants it every week. The editor cannot be every where and see all that happens. If you neglect to tell us an item of news that should be published, don't blame us if it fails to be in print. We are anxious to print all the local news, but to print the news we must first know what the news is.

Examination for Diplomas.

The last examination of the school year for diplomas of graduation in the common school course of study will be held at Stanton tomorrow and Saturday. A diploma entitles the student to enter the county high school and gives eligibility for appointment to the State Normal School.

Fish have been playing on the shoals for several days, and the boys will probably offer as an excuse for giggling and seeing that they won't bite while playing so they can catch them with hook and trot and it is too long a period to do without fish.

Elder J. M. Rash will preach at Clay City on the 4th Sunday in May, morning and night, also services on Saturday night before. All the people in Clay City and vicinity are cordially invited to attend all three of these services.

Two New Lawyers.

A. T. Whitt and Clarence Atkinson went to Campton Thursday and were examined for license to practice law. Both passed a most creditable examination and were each admitted to the bar. Both of these young men stand high in business and social life and with the pluck and energy they possess the practice of law with them is a foregone success.

Improving Our Roads.

The sun has done wonders for our roads this week. Mud holes have been dried up every where, but many holes that were cut out still exist and the surface of our highways will be exceedingly rough for a while. Farmers are too busy with their farm work to travel them and smooth them. Our drag at this time would come in handy to smooth them down.

Wins Over All.

H. G. Garrett was nominated by the Republicans at Paris last week for Railroad Commissioner in this the Third District. For a time it seemed the combined forces would certainly defeat him, but he was too strong for all of them. It is probable that the Democrats will give Mr. Garrett no opposition as the district is solidly Republican.

Boys, don't forget that Corn Club but have your name enrolled today and go to work in earnest and raise an acre of good corn. The corn will amply repay you for the effort besides some of the valuable prizes you have a show to win.

The Republican State Convention to nominate candidates for State officers will be held in Louisville beginning July 11. Delegates will be chosen in county mass conventions July 8.

A glass brick plant has begun operations at Frankfort. The brick will be used for interior finish of hotels and office buildings, and are the first glass brick to be made in this State.

Born, Friday, May 5th to Mr. and Mrs. J. R. McDaniel, of Warsaw, Ky., a son. Mrs. McDaniel was formerly Miss Mayne Groves of this city.

Mrs. A. T. Whitt is visiting relatives in Morehead.

Good Roads Talk.

Why not all the counties of the State unite in a good roads movement, and observe "road week" at the same time? All cannot join in the work upon "Lincoln Way," but the counties that cannot, can build "a way of their own."—Ashland Independent.

Fuzewell county, Virginia, voted to expend the sum of \$625,000 for good roads. That's more than the entire State of Kentucky expended for good roads last year.—Maysville Public Ledger.

Bad roads in Kentucky cost \$2.50 per capita. Good roads under State aid will cost 25 cents per capita. Which are you for?—Elizabethtown News.

Vaughn's Mill.

Mr. Geo. Dnnaway has rented the McKinney farm and took possession Saturday.

The seed corn has been gotten for the young chaps of Hardwick's Creek and it is now up to them to do the rest.

Mr. Pete Wells has been very poorly for the past few days, he has severe pains in his back. We wish him a speedy recovery.

Mr. G. W. Bush will take charge of the postoffice at Vaughn's Mill, as Mr. McKinney the former postmaster has moved.

Sunday, May 14, will be the regular appointment of Bro. Fryman at the Methodist Church. We hope to see a large crowd present.

Sunday being a fine day there was a good attendance at Church and Sunday school. The crowd took dinner with Mr. Barnett, Mr. Baker and Mr. Bush. Some stayed until after the evening service. A number of the young folks spent the afternoon at Mr. Bush's. The day was well spent.

Pony For Sale.

Dark bay pony, 47 inches high, 5 years old. Good saddle pony and perfectly gentle for children to ride. Sound every way, will sell at a bargain. Apply at this office.

Dr. C. B. Dickson will be at the Red River Hotel May 10, 11, 12 and 13th for the practice of dentistry.

A moving picture show was with us all of last week.

Notice to Stock Owners.

I will be at home each Saturday afternoon to practice my veterinary work. Anyone wishing my services should bring their stock to me at these times. A. Easter.

Notice to Taxpayers.

Many persons have yet failed to come forward and settle their tax now for past due. Unless prompt settlement is now made I will have to levy and sell property to make the tax now due the county, state and school board. This May 4th, 1911. A. H. Norton, Tax Collector.

We are authorized to announce H. G. GARRETT, of Clark county, as a candidate for Railroad Commissioner in this the Third Kentucky District, subject to the action of the Republican party.

The two great political parties are closer together today than at any time before in the history of the country. Progressive Republicans are now sometimes listed as Democrats. Dr Theron Akin, a Progressive Republican Representative in Congress got mad the other day when he was called a Democrat by those who did know what ticket he was elected on but judged by his modest actions to be a Democrat and by some means he was referred to in the Congressional Directory as a Democrat, and after 18,000 copies of this directory had been printed it was recalled and his name changed to Progressive Republican instead of a Democrat. Thus we see the day when we can not tell by the actions of some of our lawmakers what party they belong to. Good as far as it goes, but there is another wing to the g. o. p. and that is the wing that has always had control and we will be badly fooled if they don't still control when the time comes to do any legislation against the interest.

The inquiry to be made by the House of Representatives into the political machine of Postmaster General Frank Hitchcock is one in which the whole country will be interested. The resolution of inquiry directs the postoffice committee to determine how much political work is performed by postmasters and subordinate officers in the post-offices of the country, and by what authority they neglect their official duties and violate the civil service law. It has long been charged that through postoffice department patronage the postmaster general has established a

machine for the control of delegates to the national convention.

United States Attorney General Wickersham is worrying. He is afraid the investigations to be made into the affairs of the steel trust, sugar trust, shoe trust and woolen trust will give these concerns immunity from prosecution. As all of these concerns, with the exception of a few \$18 a week employees of the sugar trust, have enjoyed absolute immunity from prosecution and investigation since the day Mr. Wickersham left the service of the sugar trust to become the chief prosecuting officer of the government, it is difficult to understand how the immunity which they might receive, but will not, through congressional investigations, could be any more complete than the immunity Mr. Wickersham has given them.

Judge O'Rear, the leading Republican candidate for Governor of Kentucky says he is a strong Progressive Republican after the type of LaFollette and other leaders. Progressive Republicanism means that certain honest Republicans have completely been converted to Democracy, but hold to the name of Republican by former attachments. They will find it a difficult job to reform all of the g. o. p.

The laboring man "is in the swim" just now. His services are in great demand and most of what he has to buy to eat is down. Now the only trouble is, what he has to wear is still stiff in price. Just wait until the Democrats get to whittling on the tariff two years hence, then he can live high sure enough.

The slow way in which the government building is proceeding at Mt. Sterling has moved the Sentinel-Democrat to remark: "If Langley had to be elected to Congress three times to get the Government building started how many times will he have to be elected to get it finished."

The Manchester Clarion has made up a slate for Republican nominees for State offices, and among them is E. C. O'Rear for Governor and John W. Langley for United States Senator. We object to this. We want Langley to get those pikes for the 10th district before he leaves Congress.

More than One half the planks in every Republican platform was first designed and sawn from Democratic timber by men from the party of the people.

A boy will, (if he can) catch fish on Sunday and most of us will eat fish caught on Sunday. Now which is the worst?

SPOUT SPRING.

Farmers are all very busy planting corn.

T. S. McKinney is preparing to build another house on the site of the one burned down last week on the farm known as the Fox place.

Moses McKinney was at Winchester the latter part of the week to deliver some hogs sold some time ago for May delivery at seven cents per pound.

The house occupied by Louis Gilev on T. S. McKinney's place was burned down Friday. The fire caught from a stove pipe. This house is one of the oldest houses in the community.

Hanna's Green Seal "The Made-to-Wear Paint"

If you expect to do any painting, you are interested—you should be—in the quality of the paint to be used.

In any given job of painting, labor represents practically two-thirds, material one-third the cost.

It stands to reason that with so much expense in labor, the enduring quality of the paint is all important.

Why have the painting done unless the protection and durability of the job is sought?

How is one to determine the true value and obtain paint that may be depended upon for durability?

HANNA'S GREEN SEAL PAINT IS NOT A SECRET. This paint has the printed formula on every package.

The makers have confidence and take pride in the quality and tell the public the composition of the paint.

IS THIS OF ANY VALUE TO YOU? IT OUGHT TO BE.

Do Ghosts Haunt Swamps?

No, never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. Increasing Interest.

The Postmaster-General in a statement just made public shows that the interest in postal savings banks is steadily increasing. It is shown in his statement that \$201,961 was on deposit at the forty-eight postal savings banks at the close of business March 31, compared with \$133,869 on the last day of February, or an increase of \$68,092. The number of open accounts increased from 3,664 to 4,307 during March and the average balance per depositor from \$36.54 to \$46.89. These banks have only been open for the receipt of deposits since January 3. It is expected that the forty-five additional postoffices which were recently designated by the Department as postal savings banks will be ready to receive deposits early this month.

MIDDLEMEN WIPED AWAY
I've busted the hot air bubble of the dealers, agents and middlemen of this country by selling direct
to the homes at the same price they formerly paid me for my organs.
SEND ME YOUR NAME

whether you want to buy or not and I'll send you free of charge and postpaid the most wonderful
organ book and buying plans you ever saw. All the organ men in this country claim they make the
best organ but do not give you any proof. I do, and here is the proof. I own my own timber lands,
saw mills, dry kilns and factory. I do not have to pay one penny of profit for lumber or milling.
The profits that other manufacturers pay to lumber and saw mills, I put into my Adler Organs. (The
Nightingale of Organs). That's the reason my organ is better than any other make. Another
proof: I guarantee my organs for 50 years, whereas others guarantee theirs for 10 to 12 years.
Don't this mean something? My selling plans are the fairest, simplest, safest and easiest ever
placed before the American public, in that I grant my customers all the time they want, arrange
their payments as it suits their income and circumstances, give them reasonable extensions of time
if they can't meet their payments and charge them no interest. Ask some of your neighbors who
deal with me about this. That's the best proof you can get. I would just as soon give you \$1,000
in gold if you can duplicate this proposition.

MY ORGAN (THE NIGHTINGALE OF ORGANS)
has a tone nearest to the human voice, a pure singing tone that lasts a life time and it won the highest
prize at the St. Louis World's Fair, another proof my organs are the best. Everybody is buying an
organ these days and everybody is buying an Adler on account of its high quality, wearing qualities,
style and reputation. I am selling them for less than dealers and agents are selling cheaper grade organs
and I when you stop to think and realize that when you buy from one of these middlemen you must
pay his profit, time, salesman's salaries, store rents and other expenses, my offer means a whole lot
more to you as the king of money savers. My world's greatest organ factory is working
day and night, grinding out the organs ordered, and this condition was brought about by the fair and
liberal treatment I handed out to my customers, now numbering over 75,000. Whenever I sell an
Adler, it sells a dozen more and so on indefinitely. They've stood the test and always will. Quality
always wins out.

75,000 ADLER OWNERS SAVED \$2,625,000
Before I sold direct to the homes at wholesale factory prices, as I am doing now exclusively, I used
to sell to dealers only, but when I found out that they sold my organs for twice and three times as
much as they paid me, making the poor people bleed for it, I was thunderstruck and quit. I sent out
thousands of notices telling them they couldn't buy another organ from me, that I meant to sell direct
to the homes, saving them the enormous, unreasonable profits and expenses they were charging them.
This came to them as a thunderbolt from a clear sky. In round numbers I've saved my customers
(over 75,000 of them) at least \$2,625,000, all of which would have gone to the dealers had I sold the
organs through them. You surely appreciate what this means.
